FAQ

- Changes to Qualification Periods** – Over the last 12-months a number of changes to the international weightlifting calendar have forced changes to the qualification strategies and timelines. This document is provided as a guide to help you plan your training accordingly but please be aware that changes may be out of our control if international competitions change their dates or locations.
- Qualifying for competition** – Athletes must have achieved at least 1 of the relevant qualification standards within the qualification period outlined to be eligible for selection. If you have any questions about this process, please contact stuart.martin@britishweightlifting.org

3. Athlete Financial Contributions - to increase the number of opportunities available for international competition experience for athletes who align to Olympic or Commonwealth standards, from January 2019 BWL has decided to introduce an athlete contribution to support travel & accommodation costs. The size of contributions depends on 3 factors

- i. Home Nation funding strategy
- ii. Athlete level
- iii. Location of Competition (contribution estimates below)
 - Europe £300-600
 - Asia - £600-1000
 - Americas - £600-1000
 - Oceania £1000-1500

We recommend that athletes plan to fund raise starting 6-9 months from the date of competition, to ensure they can achieve payment deadlines and give themselves the best possible opportunities to compete.

4. Home Nation Funding – Please be aware that each home nation has a different funding structure, we recommend you discuss this with the relevant home nation representative below;

- **Scotland** – [Colin Hannah](#)
- **Wales** – [Simon Roach](#)
- **Northern Ireland** – [Peter Stewart](#)
- **England** – [Stuart Martin](#)

5. Priority/other Events – BWL sends International Arena Coaches to at all Priority events. Where possible BWL look at the feasibility of sending coaches to other events if there is a high demand of greater than 4 athletes who have submitted applications of interest to compete.
