4.1.2. The use of chalk (magnesium carbonate) is permitted.

4.1.3. The use of grease, oil, water, talcum, cream, or any other lubricant on The Athlete's body is forbidden. An Athlete who uses forbidden lubricant(s) is ordered to remove it immediately. If during the removal, the clock is running for that Athlete, the clock remains running.

4.1.4. It is the sole responsibility of The Athlete to complete each lift in accordance with the BWL TCRR and to the satisfaction of the on-duty Technical Officials.

If the Athlete repeats this action on a subsequent lift, the lift will be a No Lift.

5. COMPETITION FORMAT

- 5.1. - Athletes must adhere to a traditional rising bar competition format with the first lift being the lightest opening attempt.
- 5.2. - Each lifter will be given 2 minutes to initiate their lift, the 2 minutes will begin once the lifter is called.
- 5.3. - There will be a ten-minute break between the Snatch and Clean & Jerk attempts.
- 5.4. - Each athlete must declare their opening weight to the session marshall prior to the briefing. This weight can be amended up until the athlete's first attempt. The marshall will be located at the platform entrance.
- 5.5. - For a successful lift, an automatic increment of 1kg will be applied to the athlete's next attempt. The athlete or coach must either acknowledge the 1kg increment or declare the next attempt weight. Upon acknowledgment, two (2) further changes may be made within the athlete's remaining time. If the coach or athlete fails to provide confirmation before the lifter is called, the athlete will proceed with the automatically increased weight.

7. - MODIFICATIONS TO LIFTING STANDARDS

In specific instances, athletes may modify the standards set forth in the lifting standards. These modifications are only permitted in cases in which the athlete's impairment affects their ability to perform the movements safely. Modifications must also be discussed with the session referees and approved by the centre referee.

7.1 - ACCEPTED MODIFICATION TO LIFTING STANDARDS

Acceptable modifications include the following:

1. Setup and finish positions due to range-of-motion limitations; or
