

Welcome to the British Weight Lifting Scoring System

Who is it designed for?

BWL has developed a fully bespoke scoring system for use at national events. It has been specifically designed to help the following groups of people

Coaches and Athletes can use the scoreboard to follow the progress of competition. It lets them know when to lift, who is lifting and how much to lift

Technical Officials can use it complete weigh ins, judge lifts and control the timing clock

Spectators can use the scoreboard to see who is leading the competition and keep track of how their favourites are doing

Coach: **Ray Williams**

PB Snatch: **136**

PB Clean & Jerk: **163**

Category: **Men's 73kg**

The clock shows how long a lifter has to make an attempt. If the clock reaches 0 a 'no lift' is recorded. The clock is controlled by a referee on a iPad.

These squares will turn green or red depending on whether a lift is a success or a failure. The top three represent the snatch and the bottom three are for the clean & jerk.

An expanded scoreboard is available in the warmup rooms for coaches to analyse and count lifts. It is also on displayed intermittently to the general audience.

Lot Number

The 'Lot Number' is a randomly allocated number used to determine the order lifters weight in.

Starting Weights

Each lifter's bodyweight is recorded by Technical Officials at the weigh in using iPads linked to the system. The first attempt weight for the snatch and clean & jerk are declared at the weigh by each lifter. They are submitted by iPad directly into the scoring system.

Progression of the competition

The lowest weight is attempted first, with the bar becoming progressively heavier until every lifter has completed 3 attempts in the snatch. This is repeated in the clean & jerk. The system is known as the 'rising bar'. Sometimes it means a lifter can make 2 or even all 3 attempts back-to-back. Lifters can coaches can change their attempts in the warm up room via an I pad that is connected to the system.

Successful & Unsuccessful Lifts

Green squares indicate "good" lifts and the red squares show "no" lifts. Yellow indicates which lifter is currently competing.

If an athlete secures a "good" lift, they will have to increase the weight by at least 1kg for their next attempt. If an athlete misses a lift, they can repeat the weight or increase the weight.

If an athlete fails to record at least one successful attempt in either the snatch or clean & jerk a DSQ symbol will appear and they will not progress in the competition

Total & Placings

The athlete will receive a total when they have recorded at least one successful attempt in both the Snatch and Clean & Jerk.

The total is made by adding the lifter's highest successful Snatch and Clean & Jerk attempts together.

The lifter with the highest total will win the competition. If two people are tied then the winner is the person who achieved the total first.

Platform Clock

This is the screen the athletes can see when they are on the platform during an attempt.

The three squares indicate the decisions of the three referees

This is how much time the lifter has to make their attempt after they have been 'called' by the Speaker. There is a buzzer at 30 seconds to indicate the time remaining. If it reaches 0 before an attempt is made the lift is automatically a failed attempt.

Leaderboard: Single Groups

Brand new to the BWL system is the introduction of a leaderboard to quickly and simply show who is leading each part of the competition.

It will update after each lifter has completed an attempt.

If there is only a single group running all the lifters will be shown on the screen.

The lifters who occupy the podium positions are shown on the left.

During an attempt the screen will revert to the athletes profile

Leaderboard: Multiple Groups

If there are multiple age groups or bodyweight categories competing alongside each other at the same time, there will be a separate leaderboard for each competition.

The screenshot shows a digital leaderboard interface. At the top left is the British Weight Lifting logo. In the center, the word "Leaderboard" is displayed. To the right, a digital timer shows "00:00". Below this, there are two columns of results. The left column is titled "Women's 87+kg" and lists six athletes with their ranks, names, and lift weights. The right column is titled "Women's 87kg" and lists five athletes with their ranks, names, and lift weights. Each entry includes a set of colored squares (green and red) representing the lift status.

Women's 87+kg			Women's 87kg

The leaderboards are displayed side by side to make it easier to differentiate between each event

There are no podium pictures to ensure that every athlete's info can fit onto the screen.

During each attempt the screen reverts to an individual lifter's profile similar to the single group set-up
