1. PARTICIPANTS

1.1 Age Groups

- 1.1.1 In the sport of weightlifting, competitions are organised for men and women. The Athletes compete in specified bodyweight categories and age groups.
- 1.1.2 BWL recognises six (6) age groups for weightlifting competitions:

Development: under12 years of age

Under 10: aged 10 or below Under 12: aged 11 or 12 Youth: 13-17 years of age Under 15: aged 13, 14 or 15 Under 17: aged 16 or 17 Junior: 15-20 years of age Under 23: 15-23 years of age Senior: 15+ years of age Masters: 35+ years of age

Masters age groups follow 5-year increments, with ten age groups for each men and women e.g. 35-39, 40-44, 45-49 etc. Masters age categories are determined by the athlete's age on December 31st of the year of the

competition.

Age groups are based on the athlete's birth year. For example, a lifter who is 12 at the start of the year will compete as an Under 15 since they turn 13 that year and therefore do not qualify as an Under 12. If an athlete is 11 and turns 12 during the competition year, they will remain in the Under 12 category, regardless of whether they have already turned 12 on the day of the competition.

Male competitions at Under 15 and above will be referred to as a 'Men's competition' and at Under 12 and below as a 'Boy's competition'.

Female competitions at Under 15 and above will be referred to as a 'Women's competition' and at Under 12 and below as a 'Girl's competition'.

1.2 Bodyweight Categories

- 1.2.8 BWL reserve the right to run any of their competitions and events in any sequence of body weight categories and /or gender, in the interests of delivering a fair and interesting competition to best fit the overall needs of the competition as well as the needs of The Athletes, as BWL in its sole discretion sees fit.

2. THE TWO LIFTS

2.1 General

In the sport of Olympic Weightlifting BWL recognises two (2) lifts which must be executed in the following sequence:

The Snatch

The Clean & Jerk

Both lifts must be executed with two hands. A maximum of three (3) attempts is allowed in each lift in competition.

2.2 The Snatch

The barbell is centred horizontally on the competition platform. The Athlete takes the start position behind the barbell facing the officials. The Athlete grips the barbell and bends at the knees. The barbell is gripped, palms downward and pulled in a single movement from the platform to the full extent of both arms above the head, while either splitting or bending the legs. During this continuous movement, upward the barbell remains close to the body and may slide along the legs. No part of the body other than the feet may touch the platform during the execution of the Snatch. The Athlete may recover in their own time, either from a split or a squat position. The lifted weight must be maintained in the final motionless position, with both arms and legs fully extended and feet on the same line and parallel to the plane of the trunk and the barbell. The Athlete waits for the Referees' signal to replace the barbell on the competition platform. The Referees give the signal to lower the barbell as soon as The Athlete becomes motionless in all parts of the body.

2.3 The Clean & Jerk

2.3.1 The first part, the Clean:

The barbell is centred horizontally on the competition platform. The Athlete takes the start position behind the barbell facing the officials. The Athlete grips the barbell and bends at the knees. The barbell is gripped, palms downwards and pulled in a single movement from the platform to the shoulders, while either splitting or bending the legs. During this continuous movement, upward the barbell remains close to the body and may slide along the legs. The barbell must not touch the chest before it stops at the final position either on the clavicles, chest or on fully bent arms. The Athlete's feet must return to the same line and the legs must be fully extended before starting the Jerk. No part of the body other than the feet may touch the platform during the execution of the Clean. The Athlete may recover in their own time and must finish with the feet on the same line and parallel to the plane of the trunk and the barbell.

2.3.2 The second part, the Jerk:

The Athlete must become motionless with the knees fully extended after the clean and before starting the jerk. The Athlete bends and then dynamically extends the legs and arms simultaneously to move the barbell upwards in one motion to the full extent of the arms while lowering the body under the barbell and either splitting or bending the legs. The Athlete then returns the feet to the same line parallel to the plane of the trunk and the barbell with both arms and legs fully extended. The Athlete waits for the Referees' signal to replace the barbell on the competition platform. The Referees' give the signal to lower the barbell as soon as The Athlete becomes motionless in all parts of the body.

Before the Jerk, The Athlete may adjust the position of the barbell for the following reasons: To withdraw or "unhook" the thumbs
If breathing is impeded
If the barbell causes pain
To change the width of the grip

The barbell adjustments noted above are not considered to be an additional attempt at the Jerk.

2.4 General Rules for all Lifts

- 2.4.1 The technique known as the hook grip is permitted. It consists of covering the last joint of the thumb with the other fingers of the same hand at the moment of gripping the barbell.
- 2.4.2 In both lifts, the Referees must count as "No lift" any unfinished attempt in which the barbell has reached the height of the knees

- 2.4.3 After the Referees' signal to lower the barbell, The Athlete must lower it in front of the body. The grip on the barbell must only be released when it has passed below the level of the shoulders.
- 2.4.4 An athlete who, for any reason, cannot fully extend the elbow(s), must report/display this fact to all Referees for their Group as well as the Jury (where there is one) prior to the start of competition and remind them of this fact prior to the start of each lift when on the platform. This is the sole responsibility of The Athlete. The Jury may call the Competition doctor (if one in attendance) to examine the elbows.
- 2.4.5 When snatching or cleaning in the squat style, The Athlete may assist their recovery by swinging, rocking or bouncing their body while in the squat position.
- 2.4.6 The use of chalk (magnesium carbonate) is permitted.
- 2.4.7 The use of grease, oil, water, talcum, cream or any other lubricant on The Athlete's body is forbidden. An Athlete who uses forbidden lubricant(s) is ordered to remove it immediately. If during the removal, the clock is running for that Athlete, the clock remains running.
- 2.4.8 Only The Athlete or the Loaders can move the barbell to a new position on the competition platform during competition. It is forbidden for a Club Official or Coach to move, adjust or clean the barbell.
- 2.4.9 It is the sole responsibility of The Athlete to complete each lift in accordance with the BWL TCRR and to the satisfaction of the on-duty Technical Officials.
- 2.4.10 When the competition clock has started for an attempt, the only person allowed on the competition platform is The Athlete who has been called.
- 2.4.11 Touching the barbell with his/her footwear: If an athlete touches the barbell with his/her footwear before the attempt the Referees must press Red. If the barbell is touched after a successful attempt with his/her footwear the Referees decision will not be reversed, however the Jury will give a warning to the Athlete. If the Athlete repeats this action on a subsequent lift, the lift will be a No Lift.

2.5 Incorrect Movements

- 2.5.1 Incorrect movements for all lifts
- Pulling from the hang, defined as: stopping the upward movement of the barbell during the pull.
- Touching the platform with any part of the body other than the feet during the execution of the lift.
- Pause during the extension of the arms.
- ❖ Finishing with a press-out, defined as: continuing the extension of the arms after The Athlete has reached the lowest point of their position in the squat or split for both the Snatch and the Jerk.
- ❖ Bending and extending the elbows during the recovery.
- ❖ Leaving the competition platform or touching the area outside the competition platform with any part of the body before the complete execution of the lift.
- Releasing the barbell from above the shoulders. For the U12 and U10 age groups when using the 5kg technique bar the barbell must not be released above the knee height.
- Failing to replace the complete barbell on the competition platform.
- Not facing the Centre Referee at the beginning of the lift.
- ❖ Lowering the barbell before the Referees' signal.

2.5.2 Incorrect movement for the Snatch

- Pause during the lifting of the barbell.
- 2.5.3 Incorrect movements for the clean
- Resting or placing the barbell on the chest at an intermediate point before its final position producing a "double movement": often referred to as a "dirty clean".
- ❖ Touching the thighs or the knees with the elbows or the upper arms.
- 2.5.4 Incorrect movements for the Jerk
- ❖ Any apparent effort to jerk which is not completed; including, lowering the body or bending the knees.

- Any deliberate oscillation of the barbell to gain advantage. The Athlete must become motionless before starting the jerk.
- 2.5.5 Incomplete movements and positions
- Uneven or incomplete extension of the arms at the completion of the lift.
- Failing to finish with the feet and the barbell in line and parallel to the plane of the trunk.
- Failing to fully extend the knees at the completion of the lift.

3.1.2 Technical Officials' and Competition Management Tables

The placement of all Technical Officials' and Competition Management tables (and chairs) is consistent throughout all BWL Events.

3.1.2.1 Jury Table:

Where there is a Jury, it is located in a place where the view of the competition platform and stage is clear and unobstructed. The Jury table must be placed a maximum of ten metres from the centre of the platform, between the Centre and the Side Referees' tables and located on the side of the Athletes point of entry. Organisers must provide platforms, as an elevation for the Technical Officials if their view is impeded by the height of the stage.

3.1.2.2 Referees' Tables:

<u>Centre Referee</u> must be seated at least 2m measured from the front of the competition platform to the front of the referee table and in line with centre of platform.

<u>Side Referees</u> must be seated on the same line as and parallel with the Centre Referee, two to three metres from the Centre Referee. Organisers must provide platforms, as an elevation for the Technical Officials if their view is impeded by the height of the stage.

The collars in terms of technical specification will be as per the most current IWF TCRR.

Discs are loaded and secured by collars on the sleeve of the bar. The bar is loaded with the heaviest discs first and then the lighter discs loaded in descending order of weight toward the outer edge of the bar. Discs must be loaded so that both the on- duty Referees and Jury can identify the weight of each disc.

An adequate number of sets of men's and women's barbells and additional discs must be provided for each competition.

3.3.4 Scales

Scale must:

3.3.5 Coach Warm-Up Pass

Warm up passes are worn for Coach identification during competition. Warm up passes are issued to Coaches in line with TCRR 6.4.3.

3.3.6 Timing and Information System (TIS)

The TIS is a complex and integrated competition management application used to implement the running order of the competition as per the TCRR. There are several versions of TIS which can be used, they may include:

3.3.6.1 Referee Light System management software and the following hardware:

The Referee Light System is the means by which Referees adjudicate the lifts.

The Referee Light System consists of one (1) control box for each of the three (3) Referees. It may also include control boxes for the Timekeeper and Jury.

Each of the Referees must give the "Down" signal by pressing a button for a 'Good Lift' or a 'No Lift' according to the function of the TIS and the relevant competition rules. When two (2) of the Referees have provided identical decisions, a visual and/or audible 'Down' signal is given to The Athlete to replace the barbell on the competition platform.

Immediately after a majority decision; the referees decision must be displayed clearly to The Athlete, the referees and the audience, indicating the individual decision of the referees by corresponding colours to their location relative to the platform.

The decision must be visible for a minimum of three (3) seconds.

After the visible and audible "Down" signal the Referees have a three (3) second window to reverse their decision. If a referee does not use an electronic TIS to display a changed decision within the three (3) seconds, they can still overturn their decision using a manual signal such as a flag or hand signal.

When the "Down" signal has been given and the decision is displayed and The Athlete does not lower the barbell, the centre referee must verbally and physically instruct The Athlete to lower the barbell. During the competition, a Jury may monitor the work of the Referees. Every decision by the referees may be identified for immediate further actions. Should the jury wish to call any of the referees to the jury table they will verbally instruct the referee(s) to attend the jury table.

3.3.6.2 Communication System

The TIS may provide a direct link between the Marshal table and the Speaker to relay attempt changes and instructions from the warm up room. If the TIS does not provide this directly an appropriate alternative should be implemented such as radios or a telephone.

The TIS may also provide a direct link between the Technical Controller, Competition Management Table and the Jury. If the TIS does not provide a direct communication link between the Technical Controller, Competition Management Table and the Jury an alternative measure should be implemented such as radios or a telephone.

3.3.6.3 Timing Clock

The TIS may include an electronic timing clock with countdown mode. Increments of one (1) second must be used.

The timing clock must be able to be set to any time up to fifteen (15) minutes. If the TIS does not provide a timing clock an alternative appropriate measure must be implemented.

3.3.6.4 Attempt Board

The TIS may include an attempts display. The following information should be displayed on the Attempt Board when present:

Athlete name
Weight to be taken
Attempt number
Referees' decision, if not displayed elsewhere

- 6.4.9 Both technical officials verify The Athlete's bodyweight and record The Athletes bodyweight and starting attempts on the protocol sheet and The Athletes card if appropriate.
- 6.4.10 One authorised Coach, or an appropriate chaperone may accompany Athletes during weigh-in. If the Coach or chaperone is not of the same gender as The Athlete they cannot enter the weigh in room during the weighing in process, unless the chaperone is a parent/guardian of the U18 Athlete.

- 6.4.11 The Athlete's bodyweight must be recorded exactly as displayed on the official scale, acknowledging the 250g allowance.
- 6.4.12 The Athletes are called one at a time into the Weigh-In room, according to the progression of The Athlete's start number. Athletes not present when their name is called will be weighed at the end of the weigh-in sequence.
- 6.4.13 When multiple bodyweight categories are combined into one group, the lighter bodyweight category athletes will weigh in first, followed by the heavier category.
- 6.4.14 Athletes must be weighed in their weightlifting costume. Athletes must not wear shoes during the weigh-in. Socks are permitted but **no** allowance will be made for their weight. An allowance of 250 grams will be deducted from the weight shown on the scales to allow for the weight of the Costume.

Note, the 250g allowance will be applied to each athlete. This potentially could mean an athlete is <u>under</u> their officially entered bodyweight category. In accordance with 6.4.18 an Athlete may return to the weighin room as many times as necessary to make the bodyweight category.

In a competition where Athletes are not required to wear a one piece weightlifting costume, the Athlete must be weighed in their competition outfit and the maximum allowance is still 250g.

- 6.4.15 Athletes are entitled to wear jewellery, hair adornments and religious head wear during weigh-in.
- 6.4.16 The Weigh-In room must be presented in and provided with proper hygienic conditions. Disinfectant/antiseptic cleanser and cloths should be made available to wipe the scale, if desired/ required.
- 6.4.17 An Athlete who is within the weight of the bodyweight category in which they officially entered is weighed only once.
- 6.4.18 An Athlete who is under or over their officially entered bodyweight category may return to the weigh-in room as many times as necessary to make the bodyweight category. The returning Athlete does not have to follow the sequence of weigh-in order.
- 6.4.19 At Tier 3 events, athletes who were originally entered and on the start list but who do not attend their weigh in, may at the discretion of the organiser weigh in and compete as a guest alongside another group. Guest totals do not count towards placings in competition but can be used for qualifications, records and rankings.
- 6.4.20 At Tier 1 and 2 events athletes who fail to weigh within the limits of their declared bodyweight category may only then compete as a guest (at the discretion of BWL/host Nation).
- 6.4.21 At Tier 3 events athletes who fail to weigh within the limits of their declared bodyweight category may be entered into another bodyweight category at the discretion of the organiser.
- 6.4.22 During the Weigh-In, The Athlete's Coach or the Athlete must acknowledge and submit the starting attempts in both the Snatch and Clean & Jerk, with reference to the 20kg rule (80% of entry total for Masters, as per International Masters Weightlifting Association). and The Athlete's bodyweight, either by way of an integrated TIS, other electronic method, or athletes card. Any subsequent changes to the declared starting attempts are considered part of the two (2) allocated weight changes.
- 6.4.23 The Protocol is made available to all concerned parties, as soon as possible upon the completion of the Weigh-In.

6.5 Introduction and Call Times

6.5.1 To ensure a timely competition schedule athletes must be ready for presentation according to the following call times:

20 minutes before first lift - Athletes must be present in warm up room and not leave before the presentation is complete

15 minutes before the first lift - Athletes will be marshalled for presentation and must not leave the warm up room

10 minutes before the first lift - Athletes will be presented to the spectators.

The competitors of the category or group are presented in ascending start number order. Should any competitor not be present for the formal introduction, they will be requested to explain their absence to the Competition Director who will determine the appropriate warning or further action.

6.5.2 Technical Officials of the competition are then presented or announced in the following order:

Chief Referee

Side Referees

Time Keeper

Marshal

Technical Controller(s)

Competition Doctor(s)

Jury (introduced whilst in their seats)

6.6 Course of the Competition

6.6.1 The barbell is loaded in progression. The Athlete requesting the lightest weight lifts first. Once the announced weight is loaded on the barbell, and the clock has started, the weight cannot be reduced. The Athlete or Coach must therefore observe the progression of the loading and be ready to make the attempt at the weight they have chosen. This is the sole responsibility of The Athlete/Coach. In case of any mistake occurring in the lifting order, either by fault of The Athlete/coach/technical official, the final classification of athletes is decided by what the order of lifting should have been if the sequence had been correct.

6.6.2 Decision making process for attempts with loading errors:

If the barbell is loaded to a lighter weight than the one requested by The Athlete, The Athlete may, if he/she wishes, either accept the attempt if it was successful and provided the barbell was loaded to a multiple of 1 kg, or refuse it. If he/she refuses the attempt, The Athlete is granted an additional attempt with the weight originally requested.

If the barbell is loaded to a heavier weight than the one requested by The Athlete, The Athlete may, if he/she wishes can accept the attempt if it was successful and provided the barbell was loaded to a multiple of 1kg. If the attempt is not successful or if the barbell is not a multiple of 1 kg, The Athlete is automatically granted an additional attempt with the weight originally requested.

- 6.6.3 The weight of the barbell must always be a multiple of one (1) kg.
- 6.6.4 The automatic progression after any successful attempt for the same Athlete must be a minimum of one (1) kilogram. If the lift is unsuccessful the weight on the barbell automatically remains the same.
- 6.6.5 The minimum weights that can be lifted at BWL Events are:

Men = twenty-six (26) kg (20kg bar, 2.5kg collars, and two 0.5kg discs)

Women = twenty- one (21) kg (15kg bar, 2.5kg collars and two 0.5 kg discs)

U12 and below = ten (10) kg (5 kg bar, spring collars and two 2.5 kg full size discs).

- 6.6.6 The total weight of the starting attempts declared and taken in the Snatch and the Clean & Jerk cannot be less than twenty (20) kg below the verified entry total (80% of entry total for Masters, as per International Masters Weightlifting Association). The Technical Controller will exclude The Athlete from the competition if this rule is not adhered to. The above rule is commonly referred to as the "20 Kilo Rule" and will be applied as stated in the most current IWF rules.
- 6.6.7 Calling Order
- 6.6.7.1 The following four (4) factors listed in priority must be considered when calling The Athletes:

The weight of the barbell (lightest weight first)

The number of the attempt (lowest number first)

The sequence/order of the previous attempt(s) (The Athlete who lifted earliest is first)

The start number of The Athlete (lowest first)

- 6.6.8 Each Athlete is allocated one (1) minute in which to start their attempt. The minute begins immediately after the Speaker has finished calling The Athlete name and attempt weight, as outlined in 7.10.1.
- 6.6.9 Athletes can submit changes to their attempted weight in the first 30 seconds after the timing clock is started for their attempt. Athletes cannot submit changes in the final 30 seconds after the timing clock is started for their own attempt.
- 6.6.10 When an Athlete attempts two (2) lifts in succession, they are allowed two (2) minutes (120 seconds) for the succeeding attempt. BWL reserves right to change the interval period between attempts.
- 6.6.11 Thirty (30) seconds before the end of the allocated time, a warning signal sounds. If at the end of the allocated time The Athlete has not raised the barbell from the competition platform to make the attempt, this attempt is declared "No lift" by the Referee(s).
- 6.6.12 The timing clock is started the moment the Speaker finishes the announcement of the attempt or when the barbell is loaded and the loaders have left the platform, whichever is last.
- 6.6.13 The clock is stopped the moment the bar leaves the platform at the start of the attempt. If the barbell does not pass the height of The Athlete's knees and is returned to the platform the clock will restart as this does not count as an attempt. If the bar passes the height of the knees and replaced on the platform it is a no lift.
- 6.6.14 An Athlete is granted only one (1) minute if while taking two lifts in succession the calling order changes and the clock starts for another Athlete.
- 6.6.15 The weight announced by the Speaker must be immediately displayed on the Attempt Board.
- 6.6.16 At Tier 1 and 2 events, when an Athlete wishes to increase or decrease the weight originally selected, the Coach / Athlete must notify the Chief Marshal. The change will then notified to the Competition Management Table by way of the TIS, or other communication method. At Tier 3 events the Coach / Athlete must notify the Speaker of any changes.
- 6.6.17 To increase the weight, the Coach / Athlete must submit the weight change before the thirty (30) second indicator.
- 6.6.18 An attempt cannot be lowered to a weight that has already been lifted by another athlete with a higher start number unless for a later attempt number. i.e. a first attempt always precedes a second attempt regardless of start number. An attempt cannot be lowered by an athlete if the clock has already started for their own attempt at a higher weight.
- 6.6.19 The thirty (30) second indicator is the signal given by the timing clock thirty (30) seconds before the end of the allocation time.
- 6.6.20 Between two attempts the Coach / Athlete must acknowledge and submit the next attempt weight at the Marshal Table; both for a declaration weight and automatic increment. This acknowledgment allows two (2) further changes within The Athlete's remaining time.

If the Coach / Athlete fail to do so before the thirty (30) second indicator, The Athlete will make their attempt according to the automatic progression.

6.6.21 When an Athlete is taking consecutive attempts (2 minutes allocated time), the Coach / Athlete must declare the next attempt within the first thirty (30) seconds after being called, even if it is the automatic increment.

Failure to do so will forfeit the two (2) changes allowed. The Athlete will then have to take the automatic increment.

- 6.6.22 When the Coach / Athlete asks for a change of weight and still has to take the heavier weight next, the clock is stopped while the weight is changed. After the change of weight has been completed, the clock continues to run.
- 6.6.23 When the Coach / Athlete asks for a change of weight and, in doing so changes the order to follow another Athlete, the normal one (1) minute (60 seconds) applies for the next attempt.
- 6.6.24 The Coach / Athlete must notify the Chief Marshal if they wish to withdraw from lifting either during the Snatch or the Clean & Jerk portions of the competition, or both. It must be noted and signed on The Athlete's Card that they are withdrawing from the respective lift.

Once The Athlete's Card has been signed the withdrawal is official and The Athlete cannot re-enter the competition in that respective lift. The Speaker then announces the withdrawal.

- 6.6.25 An Athlete may continue to the Clean & Jerk regardless of whether they have recorded a successful lift in the Snatch, but they will not receive a final placing.
- 6.6.26 During competition only on-duty Technical Officials, authorised personnel, authorised Coaches (See TCRR 6.4) and Athletes of the specific group are allowed in the FOP.
- 6.6.27 Only two (2) Coaches are permitted to stand at the designated area/entrance of the competition platform/stage.
- 6.6.28 Visually impaired athletes may be accompanied to the back of the platform by a guide. The guide must then leave the platform (but not the stage) during the execution of the lift. The guide may then return to the platform to accompany The Athlete from the stage. All guides must meet the requirements in TCRR 6.4.3 to be issued an accreditation pass.
- 6.6.29 It is the responsibility of the competition organiser that appropriate areas are staffed only by BWL Level 2 or above coaches and Technical Officials holding a valid licence and must be monitored during competition, in line with the BWL Safeguarding Policy.

6.7 Break

6.7.1 There will be a 5 minute break between the Snatch and the Clean & Jerk; unless there are six or less competitors, in which case the break will be 10 minutes. This applies if the number of lifters reduces to 6 or less after the Snatch has completed. At Tier 3 events, the 5 minute break is at the discretion of the host.

6.8 Club Classification

- 6.8.1 General Criteria
- 6.8.1.1 To be eligible for ranking in the Top Club competition a club must have at least one male and one female athlete achieve a total in the competition.
- 6.8.1.2 When an athlete enters a competition the club they represent is automatically entered into the club competition provided TCRR 6.8.3.II is met.

- 6.8.3 Scoring Criteria
- 6.8.3.1 Only the top two ranked athletes per club can score points in a bodyweight category.
- 6.8.3.2 If three athletes from the same club score points, the points for the lowest ranked of the three do not count towards the clubs' total. This is repeated for any subsequent ranked athletes from the same club. These points are not reallocated to other athletes.
- 6.8.3.3 Points will be awarded to the top 10 places in each bodyweight category as follows:

1st place 15 points

2nd place 12 points

3rd place 10 points

4th place 8 points

5th place 6 points

6th place 5 points

7th place 4 points

8th place 3 points

9th place 2 points

10th place 1 point

- 6.8.3.4 The club with the most total points from the competition is the winner.
- 6.8.3.5 In the event of two or more clubs finishing the competition with the same number of points the following factors will determine the winner:

The club who scored their points with the fewest number of athletes. If equal then;

The club with the highest aggregate place from their point scoring athletes. If equal then;

The club with highest Sinclair score when their top male and female athletes Sinclair scores are combined.

- 6.9 **Victory Ceremony**

- 6.9.2 A podium with places for the three (3) medal winners is placed on the competition platform. The medal winners line up behind the podium.
- 6.9.3 The Speaker introduces the official(s) presenting the medals. Medals are only presented for the total.
- 6.9.4 Starting with the bronze medal, the Speaker announces alternately the name, the club and the result of the medal winners in the total. The Athletes mount the podium to receive their medal when they are called. The medal ceremony is continued with the silver medal and the gold medal.
- 6.9.5 During the Victory Ceremony, medal winners cannot be accompanied by any other persons unless The Athlete is visually impaired and requires a guide.
- 6.9.6 Participants of the Victory Ceremony must not use it for political, racial or religious demonstration.

If coloured paddles or flags are not available referees will show their decision by showing a 'thumbs-down' or 'thumbs-up' for a 'no lift' or 'good lift' respectively.

- 7.5.14 When no referee light system is in place if any of the referees sees an error during the execution of a lift they raise an arm to call attention to the fault. British records may only be set at events included in the BWL Calendar. An Athlete establishing a new British record/s shall meet the Eligibility Criteria as outlined in these rules. A register of British records will be kept by BWL to whom all claims should be made. Athletes aged under 13 cannot break an U15 record. When a record is claimed, it is the responsibility of the lifter/coach/host to contact BWL within 1 week of breaking the record, and provide a copy of the results protocol, signed by all referees.

8.4 **Setting Records**

- 8.4.1 A record is a lift that exceeds the previous record by a minimum of one (1) kg and fractions of 1 kg are not permitted. All records and bodyweights will be registered in metric values.
- 8.4.2 Any attempts to set international records must be done in line with the relevant international federation rules
- 8.4.3 In competitions abroad, the weight on the barbell shall be accepted at face value for British records.
- 8.4.4 In the UK, the weights of the discs and barbell shall be taken at face value, provided that they have been tested before the contest and are at least as heavy as stated. The scales used must also have been certified as being accurate.
- 8.4.5 In Weightlifting, the first athlete to set the Record, holds the Record, both in the individual lifts and the total. If two (2) or more Athletes achieve the same result and a new record is established, time is the most important factor. The new record holder is The Athlete who completed the lift first regardless of the sequence of the competition, if divided into groups.
- 8.4.6 Only current BWL members who are in membership of BWL at the time of the lift(s) will be recognised as holding a record.
- 8.4.7 Bodyweight categories shall be those authorised by BWL and the IWF.
- 8.4.8 The lift recorded, if accepted, will be registered in the body weight category of The Athlete and may not be carried on to the next body weight category even if the record in the next body weight category is lower.
- 8.4.9 An athlete may set a Record/s in the same bodyweight category of the age group/s above that which is their own age group, if the amount recorded exceeds that standing in the higher age group/s. This rule applies only to Under 15, Under 17, Under 20, Under 23 and Senior age groups.
- 8.4.10 Home Countries, and any geographical area or competition can maintain their own set of records and shall manage the process in line with these TCRR.
